# 1 R04.12.06.01

---

## 1.1 Introduction

This document reflects the contents of the RTR R04.12.06.01.

This release contains:

- ▶ More messages to send does not work as expected when SS7 domain is selected via MME (Ref: NN28974)
- ▶ More Messages to Send does not work as expected (MT-SIPT) (Ref: NN28975)

## 1.2 New Functionality

None

## 1.3 Improvements and Changes

None

## 1.4 Software Corrections

### 1.4.1 More messages to send does not work as expected when SS7 domain is selected via MME

<b>RN-RTR-0001</b>	<b>More messages to send does not work as expected when SS7 domain is selected via MME (Ref: NN28974)</b>
<b>Release:</b>	R04.12.06.01
<b>Type of change:</b>	<input type="checkbox"/> New Functionality <input type="checkbox"/> Improvement <input type="checkbox"/> Change <input checked="" type="checkbox"/> Correction
<b>Feature or CSR:</b>	N.A.
<b>Affected items:</b>	RTR
<b>Description:</b>	RTR is fixed such that it continues the TCAP transaction towards the MSC instead of aborting it when MME domain selection routes the message to SS7.
<b>Impact:</b>	None

### 1.4.2 More Messages to Send does not work as expected (MT-SIPT)

<b>RN-RTR-0002</b>	<b>More Messages to Send does not work as expected (MT-SIPT) (Ref: NN28975)</b>
<b>Release:</b>	R04.12.06.01
<b>Type of change:</b>	<input type="checkbox"/> New Functionality <input type="checkbox"/> Improvement <input type="checkbox"/> Change <input checked="" type="checkbox"/> Correction
<b>Feature or CSR:</b>	N.A.
<b>Affected items:</b>	RTR
<b>Description:</b>	RTR is fixed such that it continues the TCAP transaction towards the MSC instead of creating a new transaction in case of MMS flag is set in the MT-SIPT flow.
<b>Impact:</b>	None
